

# Cherry and Blueberry Picking in Yamanouchi

Town of Yamanouchi has a large temperature difference between day and night, and therefore is famous for its fruits with high sugar content. Please enjoy these delicious fruits not at a tourist farm, but at an actively running farm, where fruits are carefully tended by professional farmers. Yamanouchi is home to Jigokudani Wild Monkey Park, and many Japanese-style hot spring inns. Why don't you enjoy fresh fruit and relax soaking in a hot spring bath?
