

Mikoshi Carrying at Komoro City Festival

60 *mikoshi*, a portable shrine carried on the carriers' shoulders, participate in this city festival from each district of Komoro City and many businesses. Enjoy the spectacular scenes as they parade down the streets of downtown Komoro. The parade climaxes in front of the headquarters of the festival on Aioicho Street, which is the highlight of the evening. You can also experience real joy of summer festivals as you browse many night stalls and listen to drum performances.
