

# Matsui Farm: A Bountiful Autumn Harvest with Apple-picking and Barbeque!

In the cool highland breeze at the foot of Mt. Asama is one of the prefecture's largest apple orchards. Blessed with plentiful sunlight and treated with few or no pesticides, Matsui Farm's 2000 apple trees cover over 20 delicious varieties from Nagano originals to gold standards. In autumn, you can enjoy apple-picking as the smell of ripe apples wafts through the air. Above the orchard is a barbeque area (roof-equipped) for families or groups to use. Make the most out of autumn with apple-picking and an outdoor barbeque!
